

PLATINUM SPONSOR

Lansmont has been at the forefront of shock and vibration testing since its founding in 1971. As a trusted partner for corporations, government labs and academic institutions world-wide, they offer comprehensive Field-to-Lab solutions to evaluate, simulate, and optimize the performance and durability of packaging and products. Lansmont's technologies enable engineers to identify vulnerabilities and fine-tune packaging solutions to ensure products meet the demands of real-world environments, while also supporting sustainability and quality improvements.

GOLD SPONSOR

Forankra España is a leading provider of cargo securing, protection, lifting and lashing solutions, always looking for the customer's added value for the transport and logistics industry. They offer a wide range of high-quality, reliable equipment to ensure the safety and stability of goods during transit. Forankra is committed to innovation and customer-centric solutions tailored to meet specific needs, by supporting their partners in having better logistics and cargo securing processes. They prioritize sustainability and compliance with industry regulations and together with their expert team deliver both products and consulting services, providing peace of mind to customers across diverse industries. This vision has led Forankra to team up with J2Servid – a leading Spanish provider of tailor-made and sustainable one-way-securing (OWS) solutions for the transportation industry – positioning Forankra as one of the largest players in the OWS market in Spain and Portugal and adding a step towards reaching a new milestone for the Forankra Group in Europe.

SILVER SPONSOR

Safe Load Testing Technologies is a leading provider of advanced transport simulation testing equipment designed to optimize and validate packaging. Their innovative solutions, including Load Stability Testers that meet EUMOS 40509 standards, help companies enhance load security, reduce costs, and increase operational effectiveness by simulating real-world transport conditions.

SILVER SPONSOR

ITENE is a research center with 30 years of expertise in packaging safety, design and sustainability. As an ISTA-certified laboratory, they lead innovation in packaging and transport by offering comprehensive testing solutions according to international standards – including the Eumos testing standards – and offering technical support to overcome distribution challenges. From material characterization and packaging optimization to real distribution cycle simulation and validation, over 1,800 companies trust them to minimize product damage, ensure compliance, and achieve sustainability in distribution.

European Safe Logistics Association

# Cargo Securing & Safe Packaging

8th International EUMOS Conference  
Trieste, 24–25 October 2024  
(Welcome Drink: 23 October from 19:00 p.m.)

Hotel NH Trieste  
Corso Cavour 7  
34132 Trieste

#CargoSecuring  
#LoadStability  
#SafePackaging

The 8<sup>th</sup> International EUMOS Conference brings together the most reputed experts in Cargo Securing and Load Stability to debate and network around the following Programme:

DAY 1, OCTOBER 24 <sup>TH</sup>	
9:00 h	<b>Registration</b> , NH Hotel Conference Room, Corso Cavour 7
9:30 h	<b>Opening Welcome and Opening of the 8<sup>th</sup> International EUMOS Conference</b> by Angel Hernandez, EUMOS President
9:45 h	<b>Panel 1: Rolling out Science in Practice in a Cargo Transport Unit</b> <i>Innovative Method used to measure, analyze and report on Transport Vehicle Horizontal Acceleration Dynamics</i> by Eric Joneson, LANSMONT CORPORATION <i>Science demonstrates that good Practice in Cargo Securing has its fundamental basis in Load Stability</i> by Manuel García-Romeu, SAFE LOAD TESTING TECHNOLOGIES <i>Best Practice – A case study of Packaging Optimisation for improved Load Stability to be multiplied in the beverage industry</i> by Víctor Gallego, ITENE
11:05 h	<b>Coffee Break</b> sponsored by <b>Safe Load Testing Technologies</b>
11:30 h	<b>Panel 2 Multiplying Expert Knowledge for the Professionalization of Cargo Handling</b> <i>Training, training and training. Standard EUMOS 40607: A powerful &amp; accessible Asset</i> by Brendan Condon, IRISH TRAFFIC POLICE <i>The Voice of the Specialist for multiplying Expertise: Study Centres and Driving Schools</i> by Manuel Picardi, European Driving Schools Association – EFA <i>All in one APP at the service of all Transport and Logistics Professionals and the Traffic Police</i> by Angel David Hernandez, EUMOS
12:50 h	<b>Lunch</b> sponsored by <b>Forankra/J2 Servid</b>
13:50 h	<b>Bus Transfer to Port of Trieste</b>
14:30 h	<b>Trieste Port Visit</b> <i>Welcome and Introduction to Port Visit</i> by Marcello Simicich, REBULLA SURVEYORS <i>Presentation of the Port and its Intermodal Operations: Dott. Roberto Menis, TMT Terminal Manager; C.V. (CP) Diego TOMAT, Harbour Master and Italian Coast Guard</i> <i>Guided Visit of the Trieste Port – A Live Intermodal Experience</i>
17:00 h	<b>Bus Transfer to Hotel NH Trieste, Conference Room</b>

18:00 h	<b>Panel 3 The Impact of Legislation on #Load Stability and #Cargo Securing</b> <i>The EU Packaging and Packaging Waste Regulation – Status and Next Steps</i> by Wolfgang Trunk, EUROPEAN COMMISSION DG ENVIRONMENT <i>The legal Aspects of the PPWR</i> by Martin Engelmann, Industrievereinigung Kunststoffverpackungen – IKV <i>How the PPWR impacts on Load Stability &amp; Cargo Securing</i> by Bernard Merx, European Plastics Converters – EUPC
20:00 h	<b>Gala Dinner with Award Ceremony at the Triestina della Vela, Pontile Istria 8 – sponsored by Lansmont</b>

DAY 2, OCTOBER 25 <sup>TH</sup>	
8:15 h	<b>Opening Remarks and Welcome</b> by Geert Frans, EUMOS Vice-President
8:30 h	<b>Panel 4: Finding the common Path for Logistics and Process Management towards Safe Transport</b> <i>Liability for Cargo Securing in Europe</i> by Sven Sökjer-Petersen, MARITERM <i>Environmental Conditions Mitigation. A Key Factor for a Safe Logistics Chain</i> by Raphael Lessinger, ABSORTECH <i>Zero Accidents thanks to Cargo Securing. Technology is available and Science is on our side</i> by Fran Muñoz, FORANKRA
9:50 h	<b>Coffee Break</b> sponsored by <b>ITENE</b>
10:15 h	<b>Panel 5: The Opportunity for Transport Insurance Companies to save Lives and protect Assets</b> <i>Challenges for a leading Carrier in terms of Logistics Safety</i> by Bart van Rens, EWALS <i>The Importance of Cargo Securing and Damage Assessment from a Surveyor´s Perspective</i> by Olaf Rebull, REBULLA SURVEYORS
11:30 h	<b>Panel 6: Load Stability, Compliance &amp; Enforcement in perfect Harmony</b> <i>The Load Safety Label: New Label declaring compliance with EUMOS testing standards</i> by Christian Olesen, TG EUROPE <i>Enforcement on the Road. The Challenge of addressing differences in types of vehicles, registrations, legislation, professions and practices</i> by Martin Orthen, Königsberger Ladungssicherungskreis – KLSK
12:45 h	<b>Closing and Conference Highlights by EUMOS President</b>
13:00 h	<b>Walking Lunch and Farewell (14:10 h Shuttle to Venice Airport)</b>
